

SAFE CHURCH, SAFE COMMUNITIES

for leaders

What do I have to do before anyone can work with children, youth, or vulnerable adults in my ministry?

1

I familiarize myself with the Safe Church page on the Diocesan website

START

I notify people when they are qualified to work with children, youth, and vulnerable adults, and I make sure my ministry always operates within the Safe Church guidelines and policies

9

I resend the Safe Church policies yearly and have people renew their training every three years

8

2

I identify those in my community who are required to be Safe Church certified

3

I provide them with a background check form (Rita Benson can help me with this)

4

I send them the Safe Church policies, as well as info registering and logging into Praesidium Academy using the steps on the website

7

I follow up to make sure they have completed the required training for the Diocese and my parish or ministry

5

I digitally attest that those who need to read the policies have done so

6

I direct people to the spreadsheet on the website to help them determine their role and what videos to watch
